

Our Létourneau organ accompanies the 8am service each Sunday. Other opportunities to hear organ music include the annual Organ Recital and occasional Evensong services.

Organ Scholarships are also available. The St Mark's Organ Scholarship was founded in 2016. The scholarship was made possible through some kind bequests and donations and also with the help of Musica Viva. The scholarship was established in memory of two St Mark's members. The intent was "to help nourish the fine musicianship that so blesses us, and to honour the gift of the beautiful instrument that sits in our building."

The 8am service is accompanied by our excellent Létourneau organ built in 2004 and donated by the late Lady (Nancy) Fairfax as a memorial to her late husband, Sir Vincent Fairfax.

An Organ Recital is held each year. The next recital will be held in 2026.

St Mark's Choir is delighted to be reviving Choral Evensong (Evening Prayer) services. Two services are held each year, usually in June and October. We encourage anyone who values the services contained in the 1662 Book of Common Prayer to attend and enjoy this musical treat and time of reflection. The next service will be held on 26 October 2025 at 3pm [click here](#). The Choir also holds an annual Choir Concert which will be held on Sunday 30 November 2025 at 2pm.

Currently St Mark's Music supports an Organ Scholarship. For more information about Organ Scholarships [click here](#). For specific queries about the Organ Scholarships please contact office@stmarksdp.org for more details.

Scholarship recipients

We are delighted to introduce you to our past organ scholarship recipients and thank them for their contribution to music here at St Marks:
