

# Witnessing Together

St Mark's Conference  
28 Oct 2023

inform the mind

inspire the heart

incorporate into life

**God's mission in the world is to draw all people to know his saving grace, and he invites all of us to join with him to make that happen.**

Witnessing to Jesus, and even being open with our faith, can feel intimidating, but God is with us and we're in this together.

The conference will help us see why witnessing is so important, inspire us to do it together, and equip us to witness to Christ in our communities in authentic ways together. We'll also hear testimonies, discuss and pray together, share some good food, and there will be plenty on for kids too.
