

THE ST MARK'S HISTORICAL SOCIETY

Mysteries: Do you know the answer?

Mysteries start to appear over time. Given St Mark's history, spanning over 170 years, it is not surprising that there are puzzle pieces missing. Can you help us solve these mysteries? Do you know the real story?

1. Capt. Watson had a "scrapbook" which told of many early buildings, activities and customs. Does anybody know where it is presently?
2. John Croft, Esq. was an early benefactor of St Mark's and a church warden. He was a business partner of Thomas Whistler Smith and a member of the Twofold Bay Pastoral Company with TS Mort, R & E Tooth and the Mannings. Very little is known apart from that information. Could you help?
3. Window 13 is dedicated to the memory of Caroline Elizabeth Chisholm. The window refers to a date of birth as April 1846, and date of death of 17 February 1910. However, the famous Caroline Chisholm; one of the most outstanding, but very few women, to be recognised in the early history of Sydney; was born on 30 May 1808 and died on 25 March 1877. So, who is the Caroline Chisolm recognized in our window?

If you can help us with any of these questions, [click here](#).
